

2U Rackmount Chassis with 4 Drive bays, supports microATX motherboard and PS2 600W PSU

Introduction

The RCK-204MB is a 2U Rackmount chassis which is designed with a depth of 480mm only, thus providing an ideal solution for those applications where the chassis depth can make or break a project. The RCK-204MB can fit a PS2 size power supply which is much cheaper compared to the ordinary 2U power supply. As such user can have more flexibility in choosing the power supply for this chassis. The chassis can be integrated with micro ATX motherboards or mini-ITX boards. RCK-204MB supports up to two 5.25" and two 3.5" external drive bays, (4) low-profile slots for additional peripherals. The RCK-204MB maintains a balanced internal temperature with an 80mm ball-bearing fan and additional 60mm fans with the fan bar.

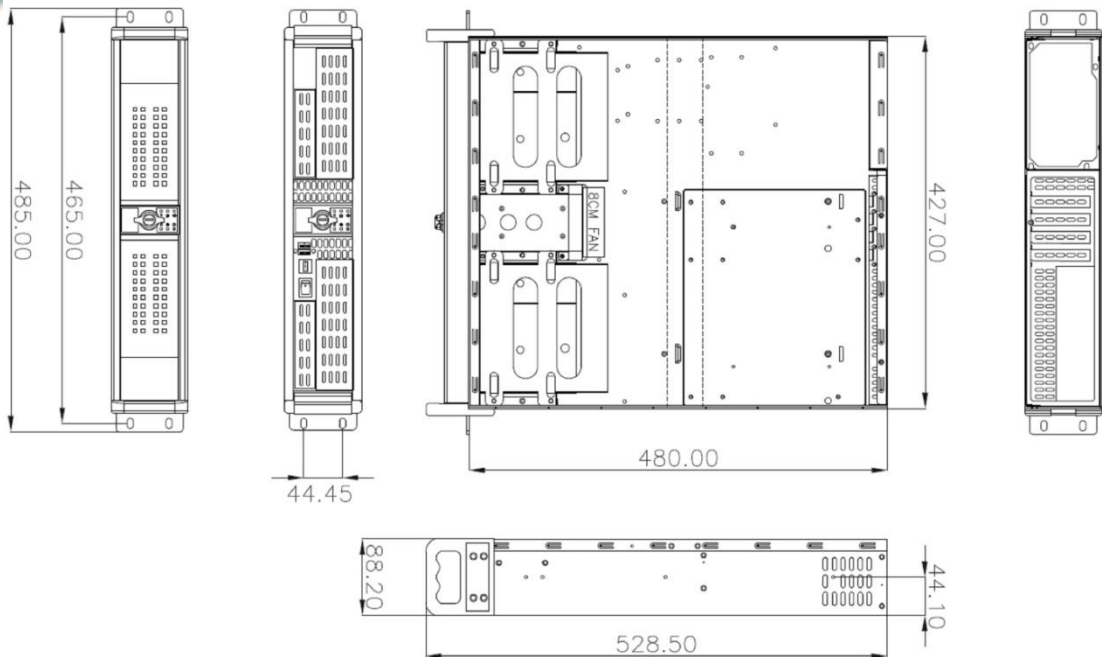

Features

- 2U 19" Rackmount chassis
- Heavy-duty steel with Zinc plating
- Built-in temperature monitor board
- Supports microATX and Mini-ITX motherboard
- Supports (2) 5.25" and (2) 3.5" external drive bays
- Dual lockable front doors with replaceable air filter
- 6 LED indicators to monitor the system
- (1) 8cm ball-bearing fan
- Fan bar for additional fans
- PS2 ATX Power supply

Mechanical Drawing

Construction

- Heavy-duty Steel

Color

- Black

Board Support

- microATX motherboard

Drive bay

- (2) 5.25" external drive bay
- (2) 3.5" external drive bay

Expansion

- (4) Low-profile slots

Port

- (2) USB ports on front panel

Switch

- Power On/Off and Reset

Indicator

- Power On/Off, HDD activity, and system defined LEDs

Cooling System

- (1) 80mm ball-bearing fan
- Additional 60mm fans (optional)

Power Supply

Support PS2 ATX power supply

Operation Temperature

- 0~55 °C

Dimension (W x D x H)

- 427 x 480 x 88 mm
- 14 x 15.7 x 3.5 inches

Weight

- NW: 8.2kg / 18lbs
- GW: 11kg / 24.2lbs
